

Network Focus Topics

As a framework for discussion, meetings will concentrate on each of these four broad topics twice during the year. Please refer to the "suit" (♥♣♦♠) assigned to the date for each network.

- ♥ Building Relationships-The Heart of the Matter
- ♣ Developing a Vision, and Valued Roles
- ♦ Ensuring Financial Security- Access to Funding/ Estate Planning
- ♠ Creating the right place to live- and the right support.

Resource people may be invited to participate. Thanks to the community organizations for the use of their meeting spaces.

Safe and Secure Futures Networks

aim to empower families to develop and nurture a support circle for their family member who has a disability. The opportunity to share and learn from each other builds confidence in creating a group of people who will listen to the hopes and dreams, consider the possibilities, and plan with an individual who is vulnerable and at risk of isolation.

You are invited to register for a Network. Feel welcome to attend any location or dates which "suit" you.

The Safe and Secure Futures Project will then be able to notify you of upcoming presentations and/or workshops.

To register, or for more information email or phone
